

**MESSRS. T. and C. CLARK and Co.**  
Representatives of W. Whitworth & Co., have respectfully to call  
the attention of Architects and Builders to their PATENT BRASS  
JOINTS for HINDS, and of the same form of wheels. These  
wheels (which are being extensively made) have of every purpose of  
about 1000 times the strength of the cast-iron wheels of the same  
size. T. and C. Clark and Co. warrant every hind to stand an  
load.  
May be had wholesale of all merchants and factors, or at the  
works, and retail of all the principal iron-mongers in the Kingdom.
